

McALLISTER DENTISTRY

General | Family | Cosmetic Dentistry

Painful, popping, clicking jaw and don't know where to turn?

Make an appointment today with Dr. McAllister! He is an expert in jaw disorders and can help you determine the cause of your Temporomandibular Joint Disorder and recommend the appropriate treatment. Treatment for the TMJ will depend on the cause and severity of your TMJ disorder. TMD treatment may include jaw and facial relaxation exercises, lifestyle changes, restorative dental treatments, a mouth guard or night guard, or jaw surgery. To learn more about TMJ treatment and to schedule your consultation with our doctor, call us today!

Let us help to Restore Your Smile!
